Object: support letter to the EMIMEO Project

Dear Pr. Denis Barataud

On behalf of my organization, I would like to give our commitment in favor of the Erasmus Mundus Joint Master EMIMEO (European Master on Innovative Microwave Electronics and Optics). We strongly support its aim of reinforcing and advancing the industrial microwave electronics and photonics sectors in Europe by targeting focus on innovation in microwave and optical components, circuits and systems development.

The company particularly encourages the creation of an innovative European training to boost innovation and competitiveness in the microwave, electronic and photonic fields. The consortium of renowned universities and academic laboratories in these fields associated with students' mobility appear to be very relevant to enhance the quality of learning and the attractiveness for potential graduate students.

As associated partners, we are interested in: (You can remove any of these or the complete paragraph as you wish)

- Receiving students for internships, in the framework of the conditions established by the project;
- Participating in the elaboration and follow-up of the activities foreseen by the project: guest lectures, "career days", field visits, Research and Innovation Committee,
- Contributing to the elaboration of the contents of teaching,
- Providing advice to the elaboration of the contents of teaching with the possibility to include specific needs,
- Participating in any other relevant activities as: (you can add some activities you would like to propose or remove this part)

I have the honor to inform you, as the director/president/responsible on behalf of name of the enterprise/Organisation, our commitment in favor of the Erasmus Mundus Joint Master EMIMEO, being submitted to the ERASMUS+ Program.
